## **Healthcare Delivery Science: 2026 Seed Grant Opportunity**

The Southern California Healthcare Delivery Science Center is interested in supporting the design, implementation, and evaluation of innovations in care delivery at Keck Medicine of USC, Children's Hospital Los Angeles (CHLA), Los Angeles County Department of Health Services (LAC DHS), and other health systems.

### **Grant Amount**

Applications may request up to \$30,000 for up to 2 years. Annual progress reports will be required. Letters of Intent should include an estimated budget total and timeline.

### **Eligibility**

Individuals with a full-time faculty appointment in any department or school/division of USC are eligible to apply as Principal Investigator. Co-investigators should include health system personnel. Diverse teams and multisite collaboration are encouraged.
