

HANDS ON REDCAP WORKSHOP

*Learn REDCap fundamentals to develop
your study database*

Who should attend?

- New to REDCap and not sure where to start?
- Need an overview of the features?
- Are you launching a new study?
- Seeking a reliable data collection and management tool?
- Looking for expert advice to structure your database effectively?

About REDCap

- REDCap (Research Electronic Data Capture) is a free, secure, web-based application designed for rapidly developing databases and surveys for clinical research studies. New to REDCap? Request your account [here](#).

(3 hours interactive lecture + 1 hour independent work)

Additional Information
Bring your laptop and charger.
Light refreshments will be provided.

Workshop Highlights
In this workshop, you will learn and use basic/intermediate features of REDCap to begin developing your database, assisted by CHLA and [BERD](#) statisticians.

Limited seats available!
