

# Informatics Tool Deep Dive Series

## *OpenSpecimen Overview*

This series is designed for researchers interested in leveraging informatics tools to support study planning and data-driven discovery. Sessions provide concise explanations and demonstrations of platforms like TriNetX, EMERSE, N3C, ENACT, and Open Specimen. Ideal for learning when and why to use each tool in the research lifecycle.

May 12th, 2026

1:00 pm - 2:00 pm PST
