

Research Ethics Forum Date/Time: 11/17/21 at 12pm

Topic:	Returning Research Results and Incidental Findings: The Challenge of Translational Science
Overview:	<p>During this 60-minute forum we discuss how the last decade has seen a revolution in research involving human participants; return of research results and incidental or secondary findings (RoR) is now routinely considered. This session addresses the current state of this transformation, ongoing debates, and the central role of RoR in translational science.</p> <p>Learning Objectives</p> <p>By the end of this forum, participants will be able to:</p> <ul style="list-style-type: none">• Describe the evolution of guidance on return of results and incidental or secondary findings.• Analyze ongoing debates.• Identify the role of return of results in translational science.
Speaker(s):	<p>Susan M. Wolf, JD Regents Professor; McKnight Presidential Professor of Law, Medicine & Ethics, University of Minnesota (she/her)</p>
