What is the Difference Between a Review Coordinator and a Program Officer? How and When to Engage, and How to Advocate for a Proposal at NIH?

The Research Success Teams (RST) program equips early career investigators with the skills they need to become independently funded.

Research Success Teams provides specialized support for junior investigators to prepare and submit competitive proposals for Career Development Awards or Independent Research Awards. Join this didactic session to become familiar with RST and understand how it can support your research career goals.
