

# Digital Scholar Webinar

Digital Tools for Scaled-Up  
Qualitative Research

## About the Webinar

Discover the power of scaling up qualitative research using digital tools in our 60-minute academic webinar. Explore the rationale behind this approach and witness its practical application through empirical examples.

## Learning Objectives

By the end of this webinar, participants will be able to:

- Describe key challenges and opportunities in scaling up qualitative research.
- Select appropriate digital tools to aid the analysis of large qualitative datasets (particularly semi-automated text analytics).
