

Team Science Workshop

Building a Shared Language and Vision

May 1st 12:00 – 1:30 PM PDT

What you'll learn:

- Explore the importance of building a **shared language and vision** within research teams
- Examine how unacknowledged differences impact teams. and learn tools **to leverage diversity as a team asset**
- Learn how to **practice team reflexivity and perspective-taking** that can strengthen team communication and interactions.

Faculty, staff, trainees, and students are **all welcome to attend**.
The workshop is designed to be useful to all team members.
