

Keck Medical Center of USC
Title IX Medical Chaperone Attestation Form

Keck Medicine of USC (KMUSC) has a steadfast commitment to a Culture of Safety. The KMUSC Culture of Safety policies and programs provide the foundation for status as a high reliability organization. The presence of a trained chaperone during a Sensitive Health Examination or procedure can protect our patients, our staff, and our clinicians. It is a standard and consistent practice at Keck Medicine of USC to have a chaperone present during all Sensitive Health Exams.

I attest that I have viewed Title IX Medical Chaperone informational video.
