Research Ethics Forum

Topic: Overcoming the Challenges of Hierarchy to Build a Culture of Accountability

This 60-minute forum outlines the importance of cultivating a culture of accountability to promote ethical decision-making and prevent research misconduct.

Learning Objectives

- Identify how high-power and low-power experiences pose unique threats to ethical conduct.
- Describe the challenges from the perspectives of a low-power actor, a high-power actor, and an organizational leader.
- Outline a plan for how individuals and groups can take action to build a culture of accountability.

Date: Friday, November 17, 2023
