DOING RESEARCH WITH EXTERNAL PARTNERS

Team Science Workshop

What you'll learn:

- Tools for successfully working in multi-sector research teams that include external (non-academic) partners (e.g., community partners, policymakers, or private sector partners).
- Communication and collaboration best practices for building a shared language and vision within multi-sector research teams.
- How to recognize and leverage the value that diverse sectors bring to research teams throughout the research lifecycle, from forming research questions, to implementing projects, and interpreting and translating research findings.

Date: June 13, 2024

Time: 12-1:30pm PT
